### Dialogue 2: Team Work & Delegating

*(RN Felicia is assigned to work with LVN Wendy and CAN Erma as a team for the shift. Their assignments include care of 8 patients. The 3 nurses are talking about their plan for the day.)*

Felicia: Hi, ladies, we are going to work together today.

LVN Wendy: \_\_\_\_\_

Felicia: I hope we can do well.

LVN Wendy: \_\_\_\_\_

Felicia: I just took report from last shift. Five of the eight patients are total care.

Erma: I'll do bathing and feeding for them. It's going to be a lot of work.

Felicia: Yes, Erma, I know you are going to be a little busy. Take vital signs first, and try to finish as much AM care as you can. Wendy and I will help you with the morning routines if we have time, OK?

Erma: No problem, Felicia. Let me take vitals first. I don't want to wait until the vitals machines are taken by others.

Felicia: Go ahead, Erma.

*(Erma leaves for the patients' rooms. Felicia speaks with Wendy.)*

Felicia: Wendy, you are going to do all the PO, IM, and SubQ meds.

LVN Wendy: \_\_\_\_\_

Felicia: Also there are 3 patients that need dressing changes.

LVN Wendy: \_\_\_\_\_

Felicia: Who knows? We never know.

---

LVN Wendy: \_\_\_\_\_

Felicia: Good. That will help. I will do the assessments, give the IV meds, chart the assessments and call the doctors if needed. Wendy, communicate with me about our patients' condition and what needs to be done, all right?

LVN Wendy: \_\_\_\_\_

Felicia: The patient in Room 411 is scheduled for surgery at 8 am. Let's start with him.

LVN Wendy: \_\_\_\_\_

Felicia: Go ahead.

*(A busy day starts.)*
