

为何要学习电动力学

为何要学习电动力学

In the beginning God created the heavens and the earth. Now the earth was formless and empty, darkness was over the surface of the deep, and the Spirit of God was hovering over the waters. And God said, **“Let there be light,”** and there was light.

为何要学习电动力学

In the beginning God created the heavens and the earth. Now the earth was formless and empty, darkness was over the surface of the deep, and the Spirit of God was hovering over the waters. And God said, **“Let there be light,”** and there was light.

起初 神创造天地。地是空虚混沌，渊面黑暗；神的灵运行在水面上。 神说：**“要有光。”**就有了光。

Let there be light
