Dialogue 2: Antihypertensive Drug Therapy

(RN Suzie will be administering medications to patient Mrs. Parker, whose prescriptions include several antihypertensive drugs. Mrs. Parker asks RN Suzie questions about the medications, and Suzie goes over the questions with Mrs. Parker.)

RN Suzie: _____

(RN Suzie checks Mrs. Parker's name band.)

RN Suzie: _____

Mrs. Parker: 6-24-1945

RN Suzie: _____

Mrs. Parker: All right.

(RN Suzie takes blood pressure for Mrs. Parker.)

RN Suzie: _____

Mrs. Parker: So it's OK for me to take the medicine?

RN Suzie: _____

(RN Suzie opens the package of a medication and gives the pill to Mrs. Parker.)

Mrs. Parker: What's this?

RN Suzie: _____

Mrs. Parker: So this is the pill making me go to the bathroom.

RN Suzie: _____

Mrs. Parker: Yes, the doctor told me it's good to keep my blood pressure low, but I don't quite understand how the blood pressure is related to going to the bathroom. Ha ha... is it a silly questions?

RN Suzie: _____

Mrs. Parker: Thank you, Suzie.

RN Suzie: _____

Mrs. Parker: Then the blood pressure drops.

RN Suzie: _____

Mrs. Parker: I got it.

RN Suzie: _____

(RN Suzie gives another tablet to Mrs. Parker.)

Mrs. Parker: What's this for?

RN Suzie: _____

Mrs. Parker: I need it, right?

RN Suzie: _____

Mrs. Parker: What else am I taking?

RN Suzie: _____

Mrs. Parker: What is it?

RN Suzie: _____

Mrs. Parker: That sounds a lot more complicated.

RN Suzie: _____

Mrs. Parker: I was told about that. Slow down, right?

RN Suzie: _____

Mrs. Parker: Thank you, Suzie. I appreciate it.

RN Suzie: _____
